This pastel workshop is designed for the beginning and intermediate pastelist and will cover materials, basic design, color, and application.

Some materials will be supplied. We will be painting from life and photographs taken on-site or in the surrounding areas of Umbria, the Green Heart of Italy.

There will be a demonstration at the beginning of each class, followed by individual easel time.

This is a great opportunity to learn the fundamentals of pastel painting as well as providing a challenge to those who already have a basic understanding of pastel technique. Expect plenty of encouragement and actionable advice.

This is a unique opportunity to work in a beautiful location with magnificent views and a special atmosphere that only Umbria, the Green Heart of Italy, can offer. Assisi is the ideal place and offers the exact conditions necessary to create.

## PROGRAM:
